r19.1.2 Changelog

+-----+
| r19.1.1 Release - 81665
+-----+

Release day - 15th September September

Bugs

- DSOF-18137 - Adding crossfade to a video on the track will no longer cause an Access Violation
- DSOF-17991 - Fixed an issue where a RenderStream layer is still active after the stream is stopped, causing errors upon receiving new Image Parameters which have an incompatible resolution
- DSOF-17826 - Fixed an issue where "Manage RenderStream Workloads" was not launching all nodes in a cluster
