r26.2 Changelog

```
+-----------------------------------+
|   r26.2  Release - 173464
+-----------------------------------+
```

Release day November 16th 2023

Improvements

- DSOF-24937 - Fixed an issue where SaveOnDelete Resource Transport commands shouldn't blocked Resource Transport if a resend failed
- DSOF-25413 - Default Variable Timecode Implementation

Fixes

- DSOF-25050 - Fixed an issue where right clicking a Screen of DMX lights on an editor while in a 2 machine or more session stopped DMX outputting
- DSOF-25186 - Fixed an issue where remote installation occasionally failed to start d3service with 'Entry Point Not Found' errors on RX servers
- DSOF-25420 Fixed an issue where the Position Receiver Axis could not use "Set" button for input ranges
