r27.4.1 Changelog

```
+--------------------------------+
|   r27.4.1 Release - 185492 |
+--------------------------------+
```

Release day April 24th 2024

Improvements

- DSOF-26926 - BlueFish card temperature is now logged on startup

Fixes

- DSOF-25176 - Fixed an issue where the Videoin preview widget failed to open when using GUI fractional framerate
- DSOF-26000 - Fixed an issue where the input configuration menu caused the Videoin preview widget to crash while using GUI fractional framerate
